

Innovative E-Learning & Onboarding Platform from Digital HR North East

Staff training at your fingertips

With access to online learning courses any time and on any device, staff training and development is made simple with our platform.

Our online courses are designed with small to midsized businesses in mind, ensuring your employees receive relevant and practical training that can actually be deployed in your workplace.

Let the platform take the stress out of staff training.

Designed to be easy to understand, the platform comes packed with engaging online training covering;

- Legislation & Regulation
- People & Relationships
- Online & Offline Safety
- Digital & Creative Skills
- Management & Leadership
 - Working from home

All our content is designed by subject matter experts and then animated to create engaging learning that people actually enjoy taking!

Your Training and On-baording anywhere

Because our platform is hosted in the cloud, it's accessible anywhere with an internet connection. In a time when remote and home working are increasingly the norm, and where field-based employees need access to the same applications used by their office based colleagues, this has never been so important.

All employees engaging with the platform can either log on via a laptop/ PC or use a smartphone/ tablet.

Our E-Learning Platform is designed to provide powerful yet simple tools to organise, report and run all your training needs in one place.

Course Library

The Platform already has over 40 courses you can access - 24/7 and on any device - and we'll constantly be adding to this library as legislation and ideas change at no extra cost.

Personalise

You to upload almost anything to your online training library alongside our courses - PDFs, videos, links and presentations can all be added to personalise the training to your business. Build your own Onboarding Programmes with defined courses and timelines

Management

You can directly allocate the right courses to the right member of staff, creating straightforward development pathways for your team based on different levels of challenge.

Make it Yours

If you have your own specific training, you can use the platform to house it - and the storage is unlimited so your training can always expand. We can also write bespoke packages for you to up-load

Testing

You are in control of the standards you set, including adding knowledge tests to any course where the pass mark is up to you and your team.
